

# Foundation Guide

## WIRED FOUNDATION

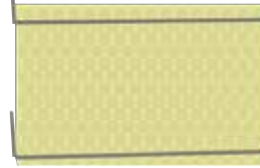

.084" Thick

- Standard 5.4mm cell size
- 0.084" thick
- 10 embedded wires add strength while the bees draw comb

Available with or without hooks 

## WIRED WITH HOOKS

.084" Thick

- 90-degree wire extends from side at top at bottom
- Hooks are designed to be placed behind the wedge during installation
- 0.084" thick
- Use with D, S and SG-style frames
- **Available in Deep, Medium or Shallow**

## WIRED WITHOUT HOOKS

.084" Thick

- Top and bottom wires are cut flush with the foundation
- Designed to be dropped in to frame or snapped into place
- 0.084" thick
- Use with N and SGX-style frames
- **Available in Deep, Medium or Shallow**

## SMALL CELL FOUNDATION

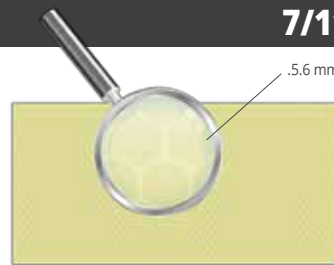

4.9 mm Cell Size

.084" Thick

- Smaller 4.9 mm cell size
- Use with small cell bees
- 0.084" thick
- **Available in wired or unwired**
- **Available in Deep and Medium**

## 7/11

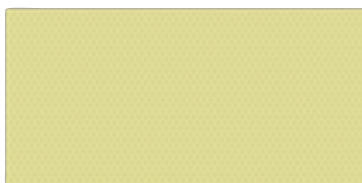

.56 mm Cell Size

.034" Thick

- Used for producing cut comb honey
- 0.034" thick
- Cells are 5.6mm – slightly larger than standard worker cells, but smaller than drone cells
- Queen will prefer not to lay eggs in the larger cells
- Important to remove this foundation before the winter so the bees don't rework into drone foundation
- **Available in Medium or Shallow**

## PLAIN

.084" Thick

- 0.084" thick
- No embedded wires
- Can be used with any style of frames
- **Available in Deep, Medium or Shallow**
- Great for making hand-rolled beeswax candles

## PLASTIC

- Plastic foundation, coated with beeswax
- Use with SGX style frames
- Available in black and white
- Made in the USA
- **Available in Deep or Medium**

## CUT COMB

.057" Thick

- Used for producing cut comb honey
- 0.057" thick
- Can be used in section boxes, rounds, or for chunk comb
- **Available in Medium or Shallow**

## PERMA-DENT

- Plastic foundation, coated with beeswax
- Corners can be removed for communication holes
- Use with the SGX and N style frames
- Available in black and white
- Made in the USA
- **Available in Deep, Medium or Shallow**
